13,278 volunteer hours

64 families served

2,962 ReStore donations

25 collaborative neighborhood projects

6 public space revitalizations

1,027 volunteers

**Calendar year program outcomes January 1, 2023 to December 31, 2023.*

“This year we witnessed some extraordinary gains

in several of our programs. With the historic Mackenzie Scott gift of \$3.5M our board and key staff created 2 new programs, Pathways to Homeownership and Preserve a Home, to help make homeownership possible for more families in our community. We

strive to serve more of Summit County and improve public spaces and created deep partnerships with those that collaborate with us. We remain steadfast to our mission of “bringing people together to build homes, community and hope”. Won’t you join us in 2024?”

Rochelle Sibbio, President & CEO of Habitat for Humanity of Summit County

“It is an honor to be part of an organization whose sole mission is to build affordable and stable housing. Working in concert with our public and private partners, we improved the housing situation for over 50 families in 2023. Our capstone event occurred in October, when we broke ground on our newest and most ambitious project – Silver Maple Ridge – which will include 16 new homes and the first new City of Akron park in

over 40 years. This is a testament to the extraordinary power of what Habitat for Humanity of Summit County does best:

Intentionally blend faith, family, and friends to build stronger communities.”

Jake Frego, Board President
